

Scenario:

You are a college freshman at USC moving into campus. You have a week till college starts but you don't know where to go to classes. You need to know the routes to your classes. You also don't have your parents waking you up everyday. So you need something to make your college experience easier and fun.

Task 1: Create your schedule with classes and timings. Also pick where your class locations are, so the app can show you the easiest routes to your classes.

Task 2: Browse through the map and see where your classes are. Then take a day out of the week, and walk around campus and to your classes.

Task 3: Its the first week of classes. You wake up early and you know the routes and get to class early. Therefore on friday, you get a free shuttle to any of your classes.
